Snake Liver Retractors

SKU RM-SLR-SERIES-1

\$299 USD

AVAILABLE SIZES & PRICING

SIZE / OPTION	SKU / DETAILS	PRICE (USD)
Triangular Tip Model	RM-SLR-TRI-1	\$299
Gastric Band Tip Model	RM-SLR-GB-1	\$299
Circular Tip Model	RM-SLR-CIR-1	\$299
Hooked Tip Model	RM-SLR-HOOK-1	\$299
Polygon Tip Model	RM-SLR-POLY-1	\$299
Complete Set of 5 Models	RM-SLR-SERIES-1	\$1,399

PRODUCT DESCRIPTION

The Snake Liver Retractors represent an essential series of laparoscopic liver elevation instruments engineered specifically to provide safe, broad-surface visceral displacement and hepatic lobe retraction during upper gastrointestinal, bariatric, and biliary minimally invasive surgery. Designed with an ultra-smooth distal geometry that inserts through standard 5 mm trocars, these retractors distribute holding forces evenly beneath the liver parenchyma, preventing capsular tears, subcapsular hematomas, or focal ischemic injury while establishing an unobstructed optical corridor to the stomach and hiatus.

Built to clinical framework specifications, this Snake Liver Retractors line features a 5 mm shaft diameter and a 330 mm working length equipped with a dedicated integrated cleaning flush port that allows thorough enzymatic decontamination through the cannula lumen. Handcrafted from Premium Grade AISI 304/316 Stainless Steel (Non-Magnetic), surgeons can select between Straight or Angled shaft/end profiles across five specialized tip geometries: Triangular for broad lateral lobe elevation, Gastric Band for bariatric tunneling,

Circular for diffuse peritoneal holding, Hooked for focused ligamentous engagement, and Polygon for multi-planar tissue support (\$299 each, or \$1,399 for the complete Set of 5). Its ergonomic rear dial controls distal positioning effortlessly.

Forged with an anti-glare satin matte finish, Retractor Maker manufactures the Snake Liver Retractors to withstand repetitive hospital autoclave cycles, providing minimally invasive general surgery suites, bariatric centers, and digestive disease operating theaters worldwide with exceptional mechanical durability, corrosion resistance, and complete autoclave dependability.

THANK YOU

We look forward to discussing your surgical retractor requirements.
