5 ¼" (13.3 cm)	RM-HHR-1-1	\$49
5 ½" (14.0 cm)	RM-HHR-1-2	\$59
6 ¼" (15.9 cm)	RM-HHR-1-3	\$69

PRODUCT DESCRIPTION

Hayes Hand Retractors are specialized handheld surgical retractors engineered specifically to provide atraumatic soft-tissue exposure during delicate hand, wrist, and plastic reconstructive procedures. Designed with an ergonomic broad-blade contour, these instruments allow surgeons to retract skin edges, lumbrical muscles, and delicate tendon sheaths without exerting excessive focal pressure.

Built for micro-anatomical clearance, the Hayes Hand Retractors series is manufactured across three selectable overall lengths: 5 ¼ inches (\$49), 5 ½ inches (\$59), and 6 ¼ inches (\$69). Each size is configured with a wide-angled distal blade available in ¾-inch and 1-½-inch width diameters, providing a stable contact surface that prevents tissue slippage while keeping the surgeon's hand away from the microsurgical line of sight.

Forged from Premium Grade AISI 304/316 Stainless Steel (Non-Magnetic) with a reflection-free satin matte finish, Retractor Maker manufactures Hayes Hand Retractors to ensure reliable tactile control, high corrosion resistance, and complete autoclave compatibility for plastic, orthopedic, and hand trauma centers worldwide.

THANK YOU

We look forward to discussing your surgical retractor requirements.
