Burford Rib Spreader

SKU RM-BRS-SERIES-1

\$359 USD

AVAILABLE SIZES & PRICING

SIZE / OPTION	SKU / DETAILS	PRICE (USD)
Option 3 (Compact Spread) — 200 mm maximum spread — 1 pair 47×62 mm + 1 pair 65×62 mm lateral blades	RM-BRS-SERIES-1-1	\$359
Option 1 (Medium Spread) — 260 mm maximum spread — 1 pair 47×62 mm + 1 pair 65×62 mm lateral blades	RM-BRS-SERIES-1-2	\$379
Option 2 (Maximum Spread) — 300 mm maximum spread — 1 pair 47×62 mm + 1 pair 65×62 mm lateral blades	RM-BRS-SERIES-1-3	\$399

PRODUCT DESCRIPTION

The Burford Rib Spreader is an internationally acclaimed thoracic surgical retractor system engineered specifically to provide controlled, atraumatic rib separation and chest wall exposure during major pulmonary, esophageal, and cardiovascular operations. Designed with a robust parallel slide track and interchangeable curved blades, this instrument allows surgeons to distribute mechanical distraction forces evenly across adjacent ribs, preventing intraoperative rib fractures while maintaining a wide, static operative corridor.

Built to adapt to diverse patient sizes and operative approaches, this Burford Rib Spreader kit spans three distinct operative configurations based on surgical demands. Option 1 (Medium Spread, \$379) accommodates an expansion track spread of 260 mm; Option 2 (Maximum Spread, \$399) provides an extended 300 mm spread for deep thoracic and bariatric exposures; and Option 3 (Compact Spread, \$359) offers a 200 mm spread. Handcrafted from Premium Grade AISI 304/316 Stainless Steel (Non-Magnetic), each frame kit is supplied complete with one pair each of shallow 47 mm × 62 mm and deep 65 mm × 62 mm lateral blades to accommodate varying chest wall thicknesses.

Forged with an anti-glare satin matte finish, Retractor Maker manufactures the Burford Rib Spreader to endure heavy mechanical torque and repeated hospital sterilization cycles, providing cardiothoracic suites, trauma theaters, and lung transplant centers worldwide with exceptional structural rigidity, corrosion resistance, and complete autoclave durability.

THANK YOU

We look forward to discussing your surgical retractor requirements.
