

RETRACTOR MAKER

PRODUCT BROCHURE OF

Kawamoto Double Ended Insulated Retractor

CERTIFIED & APPROVED

✓ EN ISO 13485:2016 + A11:2021

ISO 9001:2015

EN ISO 7153-1:2016

cGMP Approved

SCCI Registered since 2023

SIMAP Approved since 2023

All procedures and processes follow FDA guidelines.

Kawamoto Double Ended Insulated Retractor

SKU RM-KDEIR-1

\$34 USD

AVAILABLE SIZES & PRICING

SIZE / OPTION	SKU / DETAILS	PRICE (USD)
Kawamoto Double Ended Insulated Retractor	Dimensions / Details: 6" (152 mm) length, 14 × 16 mm L-shaped insulated blades	\$34
Protective Sleeve / Box	Dimensions / Details: Individual transit packaging	\$34

PRODUCT DESCRIPTION

The Kawamoto Double Ended Insulated Retractor is a specialized plastic and craniofacial surgical instrument engineered specifically to provide safe soft-tissue displacement while protecting adjacent tissues from stray electrosurgical currents. Coated with a durable, heat-resistant dielectric insulation, this retractor prevents accidental thermal transfer, arcing, and contact burns during active monopolar or bipolar electrocautery dissection.

Built to maximize patient safety against thermal injury, this Kawamoto Double Ended Insulated Retractor configuration features an overall tool length of 6 inches (15.2 cm / 152 mm, \$34). Its working ends incorporate a 14 mm × 16 mm wide blade footprint built on a double-ended, L-shaped configuration profile paired with a flat central handle. The smooth, non-conductive blade margins cradle delicate skin flaps and oral mucosa securely, providing operating assistants with comfortable manual leverage throughout complex reconstructive procedures.

Manufactured from Premium Grade AISI 304/316 Stainless Steel (Non-Magnetic) with a high-integrity non-conductive dielectric coating, Retractor Maker produces the Kawamoto Double Ended Insulated Retractor to withstand repetitive hospital autoclave cycles, providing plastic, maxillofacial, and pediatric surgery centers worldwide with exceptional electrical safety, corrosion resistance, and complete clinical durability.

THANK YOU

We look forward to discussing your surgical retractor requirements.
