SKU RM-LUR-17-1

\$59 USD

AVAILABLE SIZES & PRICING

SIZE / OPTION	SKU / DETAILS	PRICE (USD)
18 mm wide blade	RM-LUR-17-1-1	\$59
20 mm wide blade	RM-LUR-17-1-2	\$64

PRODUCT DESCRIPTION

The Love Uvula Retractor is a specialized otolaryngology surgical retractor engineered specifically to provide safe, non-traumatic elevation and retraction of the uvula and soft palate during adenoid and posterior pharyngeal surgery. Designed with an anatomically curved distal blade, this retractor hooks gently around the free margin of the soft palate, exposing the nasopharyngeal vault cleanly without causing mucosal contusions or tearing.

Built for optimal intraoral maneuverability, this Love Uvula Retractor holds a uniform total length frame of 17 cm that provides comfortable manual reach while keeping assistant hands outside the oral cavity. Handcrafted from Premium Grade AISI 304/316 Stainless Steel (Non-Magnetic), the instrument provides two distinct working end widths: an 18 mm wide blade layout (\$59) for pediatric and narrow palatal arches, and a 20 mm wide blade layout (\$64) that delivers optimal control for pulling back the uvula in adult anatomy. Its flat ergonomic handle ensures steady, fatigue-free manual leverage.

Forged with an anti-glare satin matte finish, Retractor Maker manufactures the Love Uvula Retractor to withstand repetitive hospital sterilization cycles, delivering high corrosion resistance, unyielding structural rigidity, and complete autoclave durability for ENT suites, plastic surgery clinics, and hospital operating rooms worldwide.

THANK YOU

We look forward to discussing your surgical retractor requirements.
