Meyerding Retractor with Ratchet

SKU RM-MRWR-18-1

\$84 USD

AVAILABLE SIZES & PRICING

SIZE / OPTION	SKU / DETAILS	PRICE (USD)
32 mm × 25 mm Wide	RM-MRWR-18-1-1	\$84
41 mm × 25 mm Wide	RM-MRWR-18-1-2	\$89
50 mm × 25 mm Wide	RM-MRWR-18-1-3	\$94
57 mm × 25 mm Wide	RM-MRWR-18-1-4	\$99

PRODUCT DESCRIPTION

The Meyerding Retractor with Ratchet is a specialized spinal surgical retractor engineered specifically to provide powerful, hands-free paraspinal muscle and soft-tissue displacement during posterior lumbar laminectomy, discectomy, and fusion procedures. Designed with an integrated mechanical ratchet lock, this retractor maintains continuous counter-traction against heavy muscle planes, freeing assistant hands while preserving a static operative corridor.

Built to clinical framework specifications, this Meyerding Retractor with Ratchet holds a uniform total frame length of 18 cm. Handcrafted from Premium Grade AISI 304/316 Stainless Steel (Non-Magnetic), the instrument offers four distinct blade geometry dimensions: 32 mm × 25 mm wide (\$84), 41 mm × 25 mm wide (\$89), 50 mm × 25 mm wide (\$94), and an extra-deep 57 mm × 25 mm wide (\$99) toothed blade profile. The toothed blade edge anchors securely onto the lamina and facet border, preventing accidental slippage during vigorous decortication and decompression.

Forged with an anti-glare satin matte finish, Retractor Maker manufactures the Meyerding Retractor with Ratchet to withstand heavy mechanical loads and repeated hospital autoclave cycles, providing spine surgery centers and neurosurgical operating suites worldwide with exceptional durability, corrosion resistance, and

complete clinical dependability.

THANK YOU

We look forward to discussing your surgical retractor requirements.
