100 mm Wide Blade — 25 cm	RM-DAR-25-1-2	\$99
115 mm Wide Blade — 25 cm	RM-DAR-25-1-3	\$104

PRODUCT DESCRIPTION

The Doyen Abdominal Retractor is a foundational general surgical instrument engineered specifically to provide broad, atraumatic displacement of the abdominal wall and pelvic viscera during major open procedures. Designed with an expansive, deeply curved paddle blade terminating in a rounded retaining lip, this instrument isolates internal organs safely away from the operative field without causing focal tissue contusions.

Built for heavy abdominal counter-traction, this Doyen Abdominal Retractor model features a standardized overall structural reach of 25 cm that keeps the assistant's hands safely outside the sterile surgical field. The instrument is manufactured across three selectable blade widths: 90 mm (\$94), 100 mm (\$99), and 115 mm (\$104). Its ergonomic handle incorporates a wide finger loop that provides superior mechanical leverage and grip stability during prolonged pelvic and visceral dissections.

Forged from Premium Grade AISI 304/316 Stainless Steel (Non-Magnetic) with a reflection-free satin matte finish, Retractor Maker manufactures the Doyen Abdominal Retractor to withstand heavy mechanical loads and repeated hospital autoclaving cycles, providing operating theaters worldwide with exceptional durability and clinical reliability.

THANK YOU

We look forward to discussing your surgical retractor requirements.
