SIZE / OPTION	SKU / DETAILS	PRICE (USD)
10 cm	RM-LSTR-1-1	\$24
13 cm	RM-LSTR-1-2	\$29
14 cm	RM-LSTR-1-3	\$34

PRODUCT DESCRIPTION

The Luer S Trachea Retractor is a classic airway and cervical surgical retractor engineered specifically to provide safe, dual-ended soft-tissue displacement and tracheal ring elevation during emergent and elective tracheostomy procedures. Designed with an S-shaped dual-ended architecture, this instrument allows surgeons to transition effortlessly between superficial pretracheal muscle retraction and direct cartilage stabilization without switching tools.

Built for complete clinical versatility, the Luer S Trachea Retractor offers highly customizable length frameworks across three overall lengths: 10 cm (\$24), 13 cm (\$29), and 14 cm (\$34). Handcrafted from Premium Grade AISI 304/316 Stainless Steel (Non-Magnetic), the retractor features matching double-ended blade widths available in 5.0 mm, 6.0 mm, 8.0 mm, 9.0 mm, and 14.0 mm (noted up to 13.0 mm and 14.0 mm interchangeably in descriptive summaries). The smooth, rounded blade margins prevent tracheal cartilage fractures or mucosal tears, while the central S-handle provides comfortable manual control.

Forged with an anti-glare satin matte finish, Retractor Maker manufactures the Luer S Trachea Retractor to withstand repetitive hospital sterilization cycles, providing ENT suites, emergency departments, and general operating rooms worldwide with exceptional durability, corrosion resistance, and complete autoclave dependability.

THANK YOU

We look forward to discussing your surgical retractor requirements.
